Delayed Start to 2021-2022 Training Year

To Cadets, Parents and Guardians,

We are looking forward to welcoming cadets and their families to a new training year; however, with the everchanging nature of the COVID-19 pandemic, a decision to delay the start of the new training year and specifically in the area of in person training has been made by the Commander at the national level of the Cadet and Junior Canadian Ranger Group to allow for a thorough risk management assessment prior to a return to training.

At the present time, this delay is forecast for the month of September, with further details and information to follow on rollout of the 2021 – 2022 training year program. We will be conducting limited virtual training for the month of September and will be reaching out to all the cadets currently enrolled in the squadron. Please check your email, MS Teams account and the website regularly for updated information.

In the meantime, should you have further questions, please do not hesitate to contact us via email or message us through your Teams account.

Sincerely,

Major S. Mitra
Commanding Officer
777 Neptune RCACS
